

I opted for an Uber for a short ride across town. The driver, was arrived on schedule, and the ride itself was smooth.

On quieter streets, or in towns without roving taxis, the person would phone a local car service and request a pickup.

Happy to note the quality of service provided by him. who has come as driver with us yesterday. It was nice ride and his behavior was good and nice delivering skills.

I think there is no country in the world without Uber

Riders choose Uber over other transportation methods for safety reasons.

On quieter streets, or in towns without roving taxis, the person would phone a local car service and request a pickup.

To meet a lot of wonderful people and enjoy conversing with them and finding out about them

I love the uber app but please, please be aware if you fail to tip immediately or forget to do so, the drivers will happily give you a low rating within hours of your trip.

.Uber follows a better routing algorithm, and their cabs reach the pick-up location within minutes, so its very comfort for others

He is a very good driver having good driving skills and very good character.

Uber offers a flexible earning opportunities

I rate him and services of your team very high.
